

Another Mother — REST API Endpoint Specification

Version 1.0 | MVP Phase 1

Base URL: <https://api.anothermother.com.au/v1>

1. API DESIGN PRINCIPLES

- **RESTful conventions** — HTTP verbs match intent (GET, POST, PUT, PATCH, DELETE)
 - **JSON everywhere** — Request/response bodies are JSON
 - **UUID identifiers** — All resource IDs are UUID v4 strings
 - **Consistent envelope** — Every response wraps in { "data": ..., "meta": ..., "error": ... }
 - **Australian timezone** — All timestamps in Australia/Brisbane (AEST/AEDT) unless specified
 - **Rate limiting** — 100 requests/minute per authenticated user, 20/minute for auth endpoints
 - **Idempotency** — POST endpoints accept Idempotency-Key header for safe retries
-

2. AUTHENTICATION & AUTHORIZATION

2.1 Authentication Flow

POST /auth/register	→ Create account (family or provider)
POST /auth/login	→ Email + password → JWT tokens
POST /auth/refresh	→ Refresh access token via refresh token
POST /auth/verify-email	→ Confirm email with OTP
POST /auth/verify-phone	→ Confirm phone with SMS OTP
POST /auth/forgot-password	→ Trigger password reset email
POST /auth/reset-password	→ Set new password with token
DELETE /auth/logout	→ Invalidate refresh token

2.2 JWT Token Structure

```
{
  "sub": "uuid-of-user",
  "type": "family" || "provider" || "admin",
  "iat": 1715625600,
  "exp": 1715629200,
  "jti": "unique-token-id"
}
```

Headers required on all authenticated requests:

```
Authorization: Bearer {access_token}
X-Request-ID: {uuid}           // For tracing/debugging
Idempotency-Key: {uuid}       // Optional, for safe retries
```

2.3 Authorization Middleware

Role	Access
family	Own profile, own jobs, own messages, browse providers
provider	Own profile, job offers, assigned jobs, earnings
admin	All resources, verification queue, financial dashboard, incidents

3. ERROR RESPONSE FORMAT

```
{
  "error": {
    "code": "VALIDATION_ERROR",
    "message": "One or more fields failed validation",
    "status": 400,
    "request_id": "req-uuid-123",
    "timestamp": "2026-05-14T09:30:00+10:00",
    "details": [
      {
        "field": "email",
        "message": "Email address is already registered"
      }
    ]
  }
}
```

Standard Error Codes:

Code	HTTP	Meaning
UNAUTHORIZED	401	Missing/invalid token
FORBIDDEN	403	Valid token, insufficient permissions
NOT_FOUND	404	Resource doesn't exist
VALIDATION_ERROR	400	Request body/params invalid
CONFLICT	409	Resource already exists or state conflict
RATE_LIMITED	429	Too many requests
PAYMENT_REQUIRED	402	Payment method issue
INTERNAL_ERROR	500	Server error (rare)

4. ENDPOINTS BY DOMAIN

4.1 AUTHENTICATION (/auth)

POST /auth/register Create new user account

Request:

```
{
  "email": "sarah.m@email.com",
  "phone": "+61400123456",
  "password": "securePassword123",
  "user_type": "family",
  "first_name": "Sarah",
  "last_name": "Mitchell",
  "suburb": "Paddington",
  "postcode": "4064",
  "state": "QLD"
}
```

Response (201):

```
{
  "data": {
    "user_id": "550e8400-e29b-41d4-a716-446655440000",
    "email": "sarah.m@email.com",
    "status": "pending",
    "message": "Verification email sent"
  },
  "meta": {
    "tokens": {
      "access_token": "eyJhbGciOiJIUzI1NiIs... ",
      "refresh_token": "eyJhbGciOiJIUzI1NiIs... ",
      "expires_in": 3600
    }
  }
}
```

Validation Rules:

- Email: valid format, unique, max 255 chars
- Phone: Australian format (+61 4XX XXX XXX), unique
- Password: min 8 chars, 1 uppercase, 1 lowercase, 1 number
- Suburb/Postcode: must resolve to valid Australian address via Google Maps API

POST /auth/login Authenticate and receive tokens**Request:**

```
{
  "email": "sarah.m@email.com",
  "password": "securePassword123",
  "device_info": {
    "platform": "ios",
    "push_token": "apns-device-token-here"
  }
}
```

```
}
```

Response (200):

```
{
  "data": {
    "user_id": "550e8400-e29b-41d4-a716-446655440000",
    "user_type": "family",
    "email_verified": true,
    "phone_verified": true,
    "onboarding_completed": false
  },
  "meta": {
    "tokens": {
      "access_token": "eyJhbGciOiJIUzI1NiIs... ",
      "refresh_token": "eyJhbGciOiJIUzI1NiIs... ",
      "expires_in": 3600
    }
  }
}
```

POST /auth/refresh Get new access token

Request:

```
{
  "refresh_token": "eyJhbGciOiJIUzI1NiIs... "
}
```

Response (200):

```
{
  "data": {
    "access_token": "eyJhbGciOiJIUzI1NiIs... ",
    "expires_in": 3600
  }
}
```

4.2 FAMILY PROFILE (/families)

GET /families/me Get own family profile

Response (200):

```
{
  "data": {
    "id": "550e8400-e29b-41d4-a716-446655440000",
    "user_id": "660e8400-e29b-41d4-a716-446655440001",
    "first_name": "Sarah",
    "last_name": "Mitchell",
  }
}
```

```
{
  "suburb": "Paddington",
  "postcode": "4064",
  "state": "QLD",
  "latitude": -27.4583,
  "longitude": 153.0042,
  "children_count": 2,
  "children_ages": [5, 8],
  "special_needs_notes": "Emma has mild peanut allergy — EpiPen in front pocket of school bag",
  "preferred_contact_method": "app",
  "emergency_contact_name": "David Mitchell",
  "emergency_contact_phone": "+61400987654",
  "onboarding_completed": true,
  "saved_providers_count": 3,
  "upcoming_jobs_count": 2,
  "created_at": "2026-03-15T10:30:00+10:00"
}
```

PATCH /families/me Update family profile

Request:

```
{
  "children_ages": [5, 8, 2],
  "special_needs_notes": "Updated allergy information...",
  "preferred_contact_method": "sms"
}
```

Response (200): Updated profile object

Validation: Only whitelisted fields updatable. Address changes trigger re-geocoding.

GET /families/me/saved-providers Get “My Mothers” list

Query Parameters:

- ?is_preferred=true — Only preferred regulars
- ?limit=20&offset=0 — Pagination

Response (200):

```
{
  "data": [
    {
      "provider_id": "770e8400-e29b-41d4-a716-446655440003",
      "display_name": "Sarah M.",
      "nickname": "Our Sarah",
      "photo_url": "https://cdn.anothermother.com.au/providers/
        ↵ 770e8400-e29b-41d4-a716-446655440003.jpg",
      "suburb": "Red Hill",

```

```
    "rating": 4.9,
    "total_reviews": 24,
    "years_of_experience": 17,
    "badges": ["wwcc_verified", "police_checked", "cpr_certified", "top_rated"],
    "total_jobs_together": 12,
    "last_job_date": "2026-05-10",
    "is_preferred_regular": true,
    "is_available_now": true
  }
],
"meta": {
  "total": 3,
  "limit": 20,
  "offset": 0
}
}
```

POST /families/me/saved-providers/{provider_id} Save a provider to “My Mothers”

Request:

```
{
  "nickname": "Our Sarah",
  "is_preferred_regular": true
}
```

Response (201): Saved provider object

DELETE /families/me/saved-providers/{provider_id} Remove from “My Mothers”

Response (204): No content

4.3 PROVIDER PROFILE (/providers)

GET /providers/me Get own provider profile

Response (200):

```
{
  "data": {
    "id": "770e8400-e29b-41d4-a716-446655440003",
    "user_id": "880e8400-e29b-41d4-a716-446655440004",
    "first_name": "Sarah",
    "last_name": "Mitchell",
    "display_name": "Sarah M.",
    "bio": "Mum of 3 (ages 12, 9, 6). 17 years of experience. I love helping other mums find their feet.
    ↳ Available for school pickups, meal prep, and crisis cover.",
    "photo_url": "https://cdn.anothermother.com.au/providers/770e8400-e29b-41d4-a716-446655440003.jpg",
```

```

"suburb": "Red Hill",
"postcode": "4059",
"state": "QLD",
"latitude": -27.4653,
"longitude": 152.9978,
"service_radius_km": 8,

    "expiry_date": "2027-03-15"
  }
]
}

```

PATCH /providers/me Update provider profile

Request:

```
{
  "bio": "Updated bio text...",
  "service_radius_km": 10,
  "auto_accept_enabled": true,
  "auto_accept_radius_km": 8,
  "max_jobs_per_day": 4
}
```

Response (200): Updated profile

GET /providers/me/earnings Get earnings dashboard data

Query Parameters:

- ?period=week|month|all — Default: all

Response (200):

```
{
  "data": {
    "available_balance": 142.00,
    "pending_balance": 84.00,
    "lifetime_earnings": 3240.00,

        "type": "provider_payout",
        "status": "completed",
        "date": "2026-05-08T16:00:00+10:00"
      }
    ]
  }
}
```

POST /providers/me/payouts Request instant payout

Request:

```
{
  "amount": 142.00,
  "method": "instant" // or "manual"
}
```

Response (202):

```
{
  "data": {
    "payout_id": "bb0e8400-e29b-41d4-a716-446655440007",
    "amount": 142.00,
    "method": "instant",
    "status": "processing",
    "estimated_arrival": "2026-05-14T02:00:00+10:00",
    "stripe_fee": 2.13
  }
}
```

GET /providers/me/availability Get availability calendar

Query Parameters:

- ?start_date=2026-05-14&end_date=2026-05-21

Response (200):

```
{
  "data": {
    "recurring": [
      {
        "id": "cc0e8400-e29b-41d4-a716-446655440008",
        "day_of_week": 1, // Monday
        "start_time": "09:00",
        "end_time": "15:00",
        "is_available": true
      }
    ],
    "exceptions": [
      {
        "id": "dd0e8400-e29b-41d4-a716-446655440009",
        "specific_date": "2026-05-15",
        "start_time": "09:00",
        "end_time": "15:00",
        "is_available": false // Blocked out
      }
    ]
  }
}
```

POST /providers/me/availability Set availability slot

Request:

```
{
  "day_of_week": 1,
  "start_time": "09:00",
  "end_time": "15:00",
  "is_recurring": true,
  "is_available": true
}
```

Response (201): Created availability slot

DELETE /providers/me/availability/{availability_id} Remove availability slot

Response (204): No content

4.4 PROVIDER DISCOVERY (/providers — Public/Family Access)

GET /providers/nearby Find providers near location (for “Choose Your Provider” flow)

Query Parameters:

- ?lat=-27.4583&lon=153.0042 — Required, family’s location
- ?radius_km=5 — Default: 5, Max: 15
- ?service_category=school-pickups — Optional filter
- ?available_now=true — Only currently available
- ?min_rating=4.5 — Minimum rating filter
- ?limit=20&offset=0 — Pagination

Response (200):

```
{
  "data": [
    {
      "provider_id": "770e8400-e29b-41d4-a716-446655440003",
      "display_name": "Sarah M.",
      "photo_url": "https://cdn.anothermother.com.au/providers/
        ↪ 770e8400-e29b-41d4-a716-446655440003.jpg",
      "suburb": "Red Hill",
      "distance_km": 2.3,
      "rating": 4.9,
      "total_reviews": 24,
      "years_of_experience": 17,
      "badges": ["wwcc_verified", "police_checked", "cpr_certified", "top_rated"],
      "services": ["school-pickups", "meal-prep", "crisis-cover"],
      "is_available_now": true,
      "bio_snippet": "Mum of 3. 17 years experience. School pickups specialist."
    }
  ]
}
```

```
    "is_saved": true,
    "is_preferred": true
  }
],
"meta": {
  "total": 8,
  "limit": 20,

      ]
    }
  ]
}
}
}

```

4.5 JOBS / BOOKINGS (/jobs)

POST /jobs Create a new job (family only)

Request:

```

{
  "service_category": "school-pickups",
  "title": "School pickup from Brisbane State School",
  "description": "Need pickup for Emma (5) and Jack (8) every Tuesday and Thursday at 3:30pm. EpiPen in
    ⇨ Emma's bag front pocket.",
  "address_line_1": "123 Given Terrace",
  "suburb": "Paddington",
  "postcode": "4064",
  "latitude": -27.4583,
  "longitude": 153.0042,
  "scheduled_date": "2026-05-20",
  "start_time": "15:30",
  "end_time": "16:00",
  "duration_minutes": 30,
  "is_recurring": true,
  "recurring_pattern": "weekly:2,4", // Tuesday, Thursday
  "children_present": [
    {
      "name": "Emma",
      "age": 5,
      "notes": "Peanut allergy — EpiPen in front pocket"
    },
    {
      "name": "Jack",
      "age": 8,
      "notes": "No allergies"
    }
  ],
  "special_instructions": "Wait at the blue gate. Call if running late.",
  "preferred_provider_id": "770e8400-e29b-41d4-a716-446655440003", // Optional
}

```

```
"booking_mode": "auto-assign" // or "choose-provider"
}
```

Response (201):

```
{
  "data": {
    "job_id": "aa0e8400-e29b-41d4-a716-446655440006",
    "status": "matching",
    "service_category": "school-pickups",
    "title": "School pickup from Brisbane State School",
    "scheduled_date": "2026-05-20",
    "start_time": "15:30",
    "total_amount": 32.20,
    "service_amount": 28.00,
    "platform_fee": 4.20,
    "payment_status": "hold_pending",
    "matching": {
      "mode": "auto-assign",
      "status": "searching",
      "estimated_assignment_seconds": 3
    },
    "stripe_client_secret": "pi_3P2xYzAbCdEfGhIj_secret_xyz" // For frontend Stripe.js
  }
}
```

Business Rules:

- If booking_mode: "auto-assign" → Trigger matching engine immediately
- If booking_mode: "choose-provider" + preferred_provider_id → Direct offer to that provider
- If preferred_provider_id unavailable → Fallback to auto-assign
- Payment hold created but NOT charged until provider accepts

GET /jobs/{job_id} Get job details

Response (200):

```
{
  "data": {
    "job_id": "aa0e8400-e29b-41d4-a716-446655440006",

GET /jobs List jobs (for family or provider)

Query Parameters:

- ?status=upcoming — upcoming, past, cancelled, all
- ?role=family or ?role=provider — Required, determines which jobs returned
- ?limit=20&offset=0

Response (200): Array of job summary objects

PATCH /jobs/{job_id}/cancel Cancel a job

Request:

```
{
  "reason": "family_emergency",
  "note": "Child is unwell, no longer need pickup today"
}
```

Response (200):

```
{
  "data": {
    "job_id": "aa0e8400-e29b-41d4-a716-446655440006",
    "status": "cancelled",
    "cancelled_by": "family",
    "cancelled_at": "2026-05-20T14:00:00+10:00",
    "refund_status": "full_refund_processed",
    "refund_amount": 32.20,
    "cancellation_fee": 0.00,
    "message": "No worries — finding another mum is on us. Full refund processed."
  }
}
```

Cancellation Rules:

- Within 10 min of booking: Full refund, no penalty
- Within 24h of job: 50% refund to family, provider gets 25% (compensation)
- Within 2h of job: No refund, provider gets 50%

- Provider cancels: Immediate re-assign, 3 strikes = suspension
-

POST /jobs/{job_id}/complete Mark job as complete (provider)

Request:

```
{
  "completion_notes": "Kids were great! Emma showed me her drawing. Jack talked about dinosaurs the
    ↪ whole way home.",
  "arrival_photo_url": "https://cdn.anothermother.com.au/jobs/.../arrival.jpg" // Optional
}
```

Response (200):

```
{
  "data": {
    "job_id": "aa0e8400-e29b-41d4-a716-446655440006",
    "status": "completed",
    "completed_at": "2026-05-20T16:05:00+10:00",
    "payment_release": {
      "provider_amount": 28.00,
      "platform_fee": 4.20,
      "status": "scheduled",
      "provider_payout_date": "2026-05-21T00:00:00+10:00"
    },
    "next_steps": {
      "family_review": "pending",
      "provider_review": "pending"
    }
  }
}
```

POST /jobs/{job_id}/verify-complete Family confirms completion

Request:

```
{
  "confirmed": true,
  "issues": null // or "provider_late" if there was a problem
}
```

Response (200): Triggers payment release if confirmed, or dispute if issues flagged

POST /jobs/{job_id}/status Update job status (provider en-route, arrived, etc.)

Request:

```
{
  "status": "en_route", // or "in_progress"
}
```

```
"location": {
  "lat": -27.4653,
  "lon": 152.9978
} // Optional, for real-time tracking
}
```

Response (200): Updated job with status timeline

4.6 JOB OFFERS (Provider Side — /offers)

GET /offers/pending Get pending auto-assign offers for provider

Response (200):

```
{
  "data": [
    {
      "offer_id": "ff0e8400-e29b-41d4-a716-446655440011",

  "time_remaining_seconds": 145,
  "is_auto_accept_eligible": true
}
]
```

POST /offers/{offer_id}/accept Accept a job offer

Request:

```
{
  "auto_accepted": false // true if via auto-accept settings
}
```

Response (200):

```
{
  "data": {
    "offer_id": "ff0e8400-e29b-41d4-a716-446655440011",
    "job_id": "aa0e8400-e29b-41d4-a716-446655440006",
    "status": "accepted",
    "job_status": "confirmed",
    "next_actions": [
      "message_family",
      "get_directions",
      "mark_en_route"
    ],
    "family_notified": true
  }
}
```

POST /offers/{offer_id}/decline Decline a job offer

Request:

```
{
  "reason": "time_conflict",
  "note": "Already booked for 3:30pm today"
}
```

Response (200):

```
{
  "data": {
    "offer_id": "ff0e8400-e29b-41d4-a716-446655440011",
    "status": "declined",
  }
}
```

```
"decline_rate_updated": 4.17,
"cascade_status": "job_reassigned_to_next_provider",
"message": "No problem — job passed to next available mum."
}
}
```

4.7 MESSAGES (/messages)

GET /messages/{job_id} Get message thread for a job

Query Parameters:

- ?limit=50&offset=0

Response (200):

```
{
  "data": [
    {
      "message_id": "gg0e8400-e29b-41d4-a716-446655440012",
      "sender": {
        "user_id": "550e8400-e29b-41d4-a716-446655440000",
        "name": "Sarah M. (Family)",
        "type": "family"
      },
      "content": "Hi Sarah! Just confirming the pickup is from the blue gate today. Emma has her EpiPen  
↳ in the front pocket of her bag.",
      "message_type": "text",
      "attachment_url": null,
      "sent_at": "2026-05-20T14:45:00+10:00",
      "read_at": "2026-05-20T14:46:00+10:00"
    }
  ],
  "meta": {
    "total": 12,
    "unread_count": 0,
    "other_party": {
      "name": "Sarah M. (Provider)",
      "is_online": true,
      "last_seen": "2026-05-20T14:50:00+10:00"
    }
  }
}
```

POST /messages/{job_id} Send a message

Request:

```
{
  "content": "No problem at all! I'll be there at 3:25pm just to be safe.",
}
```

```
"message_type": "text",
"attachment_url": null
}
```

Response (201): Created message object

Real-time: Message also pushed via WebSocket to receiver

4.8 REVIEWS (/reviews)

POST /jobs/{job_id}/reviews Submit a review

Request:

```
{
  "rating": 5,
  "text_content": "Sarah was absolutely wonderful with the kids. Emma came home showing off a drawing
  ↳ Sarah helped her with. Already rebooked for next week!",
  "categories": {
    "was_punctual": true,
    "was_communicative": true,
    "was_caring": true,
    "would_rebook": true
  }
}
```

Response (201):

```
{
  "data": {
    "review_id": "hh0e8400-e29b-41d4-a716-446655440013",
    "rating": 5,
    "status": "published",
    "provider_rating_updated": 4.91,
    "provider_total_reviews": 25,
    "message": "Thank you! Your review helps other families find trusted mums."
  }
}
```

Rules:

- Only verified completers can review (completed the job)
 - One review per direction per job
 - 48-hour window to submit (reminder email at 24h, 42h)
 - Reviews are published immediately unless flagged by moderation
-

GET /providers/{provider_id}/reviews Get public reviews for a provider

Query Parameters:

- ?limit=10&offset=0

Response (200):

```
{
  "data": [
    {
      "review_id": "hh0e8400-e29b-41d4-a716-446655440013",
      "rating": 5,
      "text_content": "Sarah was absolutely wonderful...",
      "reviewer_name": "Emma T.",
      "reviewer_initials": "ET",
      "date": "2026-05-21",
      "verified": true,
      "categories": {
        "was_punctual": true,
        "was_communicative": true,
        "was_caring": true,
        "would_rebook": true
      }
    }
  ],
  "meta": {
    "total": 25,
    "average_rating": 4.9,
    "rating_distribution": {
      "5": 22,
      "4": 3,
      "3": 0,
      "2": 0,
      "1": 0
    }
  }
}
```

4.9 VERIFICATION DOCUMENTS (/verification)

POST /verification/documents Upload verification document

Request: (Multipart form-data)

```
file: [binary file]
document_type: "wwcc"
document_number: "12345678"
expiry_date: "2027-03-15"
issuing_authority: "Blue Card Services (QLD)"
```

Response (201):

```
{
  "data": {
```

```
{
  "document_id": "ii0e8400-e29b-41d4-a716-446655440014",
  "document_type": "wwcc",
  "status": "pending",
  "file_url": "https://cdn.anothermother.com.au/verification/...",
  "uploaded_at": "2026-05-14T10:00:00+10:00",
  "estimated_review_time": "24-48 hours",
  "message": "Document uploaded successfully. Our team will review within 24-48 hours."
}
```

GET /verification/documents List own verification documents

Response (200):

```
{
  "data": [
    {
      "document_id": "ii0e8400-e29b-41d4-a716-446655440014",
      "document_type": "wwcc",
      "status": "approved",
      "expiry_date": "2027-03-15",
      "reviewed_at": "2026-03-20T14:00:00+10:00",
      "reviewed_by": "Admin Jane",
      "badge_earned": "wwcc_verified"
    }
  ]
}
```

4.10 SERVICE CATEGORIES (/services)

GET /services List all service categories

Response (200):

```
{
  "data": [
    {
      "category_id": "990e8400-e29b-41d4-a716-446655440005",
      "name": "School Pickups",
      "slug": "school-pickups",
      "description": "Safe pickup and transport from school",
      "icon_url": "https://cdn.anothermother.com.au/icons/school-pickups.svg",
      "requires_wwcc": true,
      "requires_police_check": true,
      "min_provider_rating": 4.5,
      "min_completed_jobs": 5,
      "suggested_rate_per_hour": 35.00,
      "display_order": 1,
      "is_active": true
    }
  ]
}
```

```
}  
]  
}
```

4.11 ADMIN ENDPOINTS (/admin)

All admin endpoints require **admin** role. Returns 403 for non-admins.

GET /admin/verification-queue Get pending verification documents

Query Parameters:

- ?status=pending — pending, in_review, all
- ?limit=20&offset=0

Response (200):

```
{  
  "data": [  
    {  
      "document_id": "ii0e8400-e29b-41d4-a716-446655440014",  
      "provider_id": "770e8400-e29b-41d4-a716-446655440003",  
      "provider_name": "Sarah M.",  
      "document_type": "wwcc",  
      "file_url": "https://admin.anothermother.com.au/verification/...",  
      "uploaded_at": "2026-05-14T10:00:00+10:00",  
      "days_pending": 2,  
      "ocr_data": {  
        "extracted_name": "Sarah Mitchell",  
        "extracted_number": "12345678",  
        "extracted_expiry": "2027-03-15"  
      },  
      "api_check_result": {  
        "wwcc_valid": true,  
        "match_confidence": 0.95  
      }  
    },  
  ],  
  "meta": {  
    "total_pending": 12,  
    "avg_review_time_hours": 18  
  }  
}
```

POST /admin/verification/{document_id}/review Approve or reject verification document

Request:

```
{
```

```
"action": "approve", // or "reject"
"notes": "WWCC valid per registry check. Name matches profile.",
"expiry_date": "2027-03-15"
}
```

Response (200):

```
{
  "data": {
    "document_id": "ii0e8400-e29b-41d4-a716-446655440014",
    "status": "approved",
    "provider_notification_sent": true,
    "provider_status_updated": "approved",
    "badge_earned": "wwcc_verified"
  }
}
```

GET /admin/jobs Get all jobs (oversight)

Query Parameters:

- ?status=all — Filter by status
- ?suburb=Paddington — Filter by location
- ?date_from=2026-05-01&date_to=2026-05-31
- ?limit=50&offset=0

Response (200): Array of job objects with full financial data

GET /admin/financials Financial dashboard data

Query Parameters:

- ?period=week — day, week, month, quarter, year
- ?date_from=2026-05-01&date_to=2026-05-31

Response (200):

```
{
  "data": {
    "summary": {
      "total_revenue": 1890.00,

        "supply_demand_ratio": 0.27
      }
    ]
  }
}
```

POST /admin/incidents/{incident_id}/resolve Resolve an incident

Request:

```
{
  "resolution_action": "warning",
  "notes": "Provider arrived 15 minutes late. First offence — warning issued. Family refunded 50%.",
  "refund_amount": 16.10
}
```

Response (200): Resolved incident object

4.12 WEBHOOKS (/webhooks)

POST /webhooks/stripe Stripe webhook handler

Events handled:

- `payment_intent.succeeded` → Confirm payment hold
- `payment_intent.payment_failed` → Notify family, cancel job
- `transfer.created` → Log provider payout
- `account.updated` → Update provider Stripe Connect status
- `payout.paid` → Update payout history status

Security: Verify Stripe signature (Stripe-Signature header)

Response (200): { "received": true }

POST /webhooks/twilio Twilio SMS status callback

Events:

- Message delivered/failed
- Opt-out requests (STOP)

Response (200): { "received": true }

5. WEBSOCKET EVENTS (Real-time)

Connection: wss://api.anothermother.com.au/v1/ws?token={jwt}

5.1 Client → Server Events

```
// Subscribe to job updates
{
  "action": "subscribe",
  "channels": ["job:aa0e8400-e29b-41d4-a716-446655440006"]
}

// Mark message as read
{
  "action": "mark_read",
  "message_id": "gg0e8400-e29b-41d4-a716-446655440012"
}

// Update location (provider)
{
  "action": "update_location",
  "job_id": "aa0e8400-e29b-41d4-a716-446655440006",
  "location": {
    "lat": -27.4653,
    "lon": 152.9978
  }
}
```

5.2 Server → Client Events

```
// New job offer (provider)
{
  "event": "job_offer",
  "data": {
    "offer_id": "ff0e8400-e29b-41d4-a716-446655440011",
    "job_summary": {...},
    "expires_at": "2026-05-14T09:03:15+10:00"
  }
}

// Job status update (both sides)
{
  "event": "job_status_changed",
  "data": {
    "job_id": "aa0e8400-e29b-41d4-a716-446655440006",
    "new_status": "en_route",
    "provider_location": {
      "lat": -27.4653,
```

```
        "lon": 152.9978,
        "eta_minutes": 8
    }
}

// New message
{
  "event": "new_message",
  "data": {
    "job_id": "aa0e8400-e29b-41d4-a716-446655440006",
    "message": {...}
  }
}

// Provider found (family)
{
  "event": "provider_assigned",
  "data": {
    "job_id": "aa0e8400-e29b-41d4-a716-446655440006",
    "provider": {
      "provider_id": "770e8400-e29b-41d4-a716-446655440003",
      "display_name": "Sarah M.",
      "photo_url": "...",
      "rating": 4.9,
      "years_experience": 17,
      "badges": ["wwcc_verified", "police_checked"]
    },
    "assignment_pool": "Pool_A",
    "message": "Sarah is your regular! She's helped you 12 times before."
  }
}
```

6. RATE LIMITING & PERFORMANCE

Endpoint Group	Limit	Window
Auth (login, register)	5	Per minute per IP
All authenticated	100	Per minute per user
Job creation	10	Per minute per family
Message sending	60	Per minute per user
Provider offer response	30	Per minute per provider
Admin endpoints	200	Per minute per admin
Public (nearby providers)	30	Per minute per IP

Rate limit headers on every response:

```
X-RateLimit-Limit: 100
```

```
X-RateLimit-Remaining: 87
X-RateLimit-Reset: 1715629200
```

7. TESTING ENDPOINTS

GET /health System health check

Response (200):

```
{
  "status": "healthy",
  "version": "1.0.0",
  "timestamp": "2026-05-14T09:30:00+10:00",
  "services": {
    "database": "connected",
    "redis": "connected",
    "stripe": "connected",
    "sendgrid": "connected",
    "twilio": "connected"
  }
}
```

8. POST-MVP ENDPOINTS (Not in Phase 1)

Endpoint	Description
POST /subscriptions	Subscribe to priority plan
GET /subscriptions/plans	List available plans
POST /jobs/{id}/video-call	Start in-app video call
GET /communities/{suburb}	Local mum community feed
POST /referrals	Generate referral code
GET /ai/assist	AI chatbot support

9. API VERSIONING STRATEGY

- **Current:** /v1 — MVP scope
- **Future:** /v2 — When breaking changes needed (subscriptions, video, AI)
- **Deprecation:** 6-month notice, sunset headers on responses
- **Backward compatibility:** Non-breaking additions within /v1
